psantosalexia

ABOUT ME

I'm a Data Scientist with 4+ years of experience in data analysis, statistical consultancy, and modeling across various industries. Skilled in R, Python, SQL, SAS, and Power BI, with hands-on experience in AWS, Databricks, and GCP. Driven by a strong interest in studying machine learning, artificial intelligence, and big data to continuously expand my expertise and drive innovative solutions.

SKILLS

General

- Big Data, Statistical Modeling, Data Modeling, AB Testing, Data Analysis and Data Visualization: **Proficient**
- Machine Learning and Deep learning: **Prior Experience**
- Project Management: **Prior Experience**

Tools/Programming Languages

- Python, Spark, SAS, Alteryx, Power BI, Microsoft Office and Google Workspace: **Proficient**
- R Programming, SQL: **Expert**
- GCP, AWS, Databricks and ETLs: **Prior Experience**

Languages Proficiency

- Portuguese: **Native**
- English: **Professional Working**

COURSES

Studies in Data Science | IMEEC - UNICAMP

03 2018 - 07 2021

- Methods of Supervised Machine Learning.
- Methods of Multivariate Data Analysis.

AI Applications in Industry | ICMC - USP

07 2024 - 12 2024

- Postgraduate course as special student focusing on data analysis, AI modeling for industrial challenges, and architectures like RAMI 4.0 and 5C. AI DevOps, MLOps, and integrating AI methods into industry workflows.

WORK EXPERIENCE

Data Scientist | Accenture Brazil

07 2021 - Present

São Paulo, Brazil

- Led client segmentation to develop strategies for relationship, profitability, loyalty, and retention, managing data preparation and analysis.
- Cleaned unstructured data for a social project and created dynamic visualizations and dashboards.
- Developed R scripts for basket analysis and data mapping, conducted distributor and farmer analyses, automated processes, and built interactive dashboards with Alteryx, Python, and Power BI.
- Created automated call center performance reports, structured databases, dynamic visualizations for management, and led stakeholder meetings and team operations.
- Participated in a global project focused on optimizing marketing campaigns to increase lead generation and sales, collaborating with teams from various regions. Developed analyses in SQL, created visualizations and implemented modeling in Python..

Data Scientist Intern | Accenture Brazil

03 2020 - 07 2021

São Paulo, Brazil

- Assisted in Advanced Modeling tasks for a digital channels project, creating scripts for routine execution and conducting Bayesian A/B testing. Supported the execution of a channel recommendation model to enhance campaign conversions.

Student Assistants | UNICAMP

04 2016 - 03 2019

Campinas, Brazil

- Evaluated performance of medical students at FCM - UNICAMP in social inclusion programs. Assessed financial aid awareness and developed APIs for data visualization.
- Conducted research on Music students at IA - UNICAMP, analyzing enrollment trends and monitoring study habits and resource use.

EDUCATION

Bachelor in Statistics | IMEEC - UNICAMP

03 2016 - 07 2021

Campinas, Brazil

Statistical Consulting Projects :

- Wireless Sensor Networks: Analyzed signal strength in greenhouse scenarios using GAM and GAMLSS.
- Neurometabolite Study: Assessed neurometabolite levels and neuropsychiatric links using GLMM.

VOLUNTEER WORK

MENTOR | GERANDO FALCÕES

08 2023 - 08 2024

São Paulo, Brazil

- Career development plan for community youth. Set objectives based on their needs and create an active plan to achieve them.
